

UHCL Environmental Institute of Houston Research Internship

Galveston Bay Dolphin Research Program

The Environmental Institute of Houston is seeking a dedicated intern to assist with Galveston Bay Dolphin Research Program activities. Work will entail the collection and management of bottlenose dolphin population data in Galveston Bay, Texas. The position will entail a combination of field and office work and require a 14-week commitment. Previous marine mammal coursework, field and photo-identification, and boat handling experience are highly desirable.

Salary: \$1,600 per month (temporary full-time, not benefits eligible)

Dates: June 17 – September 20, 2024

Education requirements: Bachelor's degree in marine/wildlife/conservation biology, ecology, or similar field.

The qualified candidate must:

- Commit to a full time Monday through Friday work schedule and maintain flexibility for potentially long field days and occasional weekend work.
- Provide own lodging and transportation for office located in the Clear Lake area of Houston, TX.
- Have the ability to carefully follow instructions, work independently on sometimes tedious tasks and pay close attention to detail.
- Have the ability to work long field days on a small boat in Texas heat, often in inclement or challenging conditions.
- Be experienced and comfortable using word, data and image processing software including Microsoft Office and Adobe products.
- Be willing to occasionally work on other environmental research related projects at EIH.
- Provide contact information for three references (from a faculty member, advisor or employer).
- Pass a criminal background and motor vehicle background check prior to hiring.

To Apply: Submit one combined pdf with a letter of interest, resume and contact information for three references to:

Kristi Fazioli at fazioli@uhcl.edu.

APPLICATION DEADLINE: March 8, 2024
